Approved For Release 2000/04/18 : CIA-RDP89B00551R000600130015-5

Mission 1015

Note:

Final plot, solid line, obtained from cameras 1, 6, 7, and 8.

Remarks:

Camera 6:

1. Negative numbered 1005, then 1010 at beginning of reel. Finally 1015 was used when run was finally started.
2. Clock readable — not synchronized with clocks in camera 7 and 8.
3. Counter o'k for first 170 frames. Erratic operation to frame 300. Then recorded 10 less than camera 8 to end of run.
4. Contrast very good on beginning of run. Toward end, negative appeared slightly over-exposed.

Camera 7:

1. Same remark as no. 1 for camera 6.
2. Clock readable — not synchronized with clocks in cameras 6 and 8.
3. Counter o'k for first 47 frames. Not working remainder of run.

Approved For Release 2000/04/18 : CIA-RDP89B00551R000600130015-5

4. Overall quality very good. Tendency toward over exposure toward end of run.

Camera 8:

1. Faulty metering
2. Clock readable - not synchronized with cameras 6, and 7.
3. Counter o'k entire run.
4. Quality good.

Camera 1:

1. Numerous lengthwise scratches throughout entire run.
2. Level bubble barely readable.
3. Clock not viscble.
4. Quality of contrast appears less than other verticals.
